EDUCATION

Vellore Institute of Technology
Master of Computer Applications (MCA)

Chennai, Tamil Nadu
July 2023 – Sep. 2025

Bishop Heber College
Bachelor of Computer Applications (BCA)

Tiruchirappalli, Tamil Nadu
June 2019 – May 2022

EXPERIENCE

Software Development Intern
3i Infotech Limited

Sep. 2024 – March 2025
Chennai, Tamil Nadu

- Automated **ticket creation** by integrating **Zabbix** with **ManageEngine** via **REST APIs** and **JavaScript**.
- Reduced **duplicate incidents** by building **deduplication logic** that consolidated repeated alerts under existing tickets.
- Standardized **alert routing** across server types by designing **rule-based mappings** for scalable classification.
- Improved **integration reliability** by adding **exception handling** and **retry logic** to REST-driven workflows.
- Validated **end-to-end ticketing flows** by collaborating with **ITSM** and monitoring teams in staging environments.

PROJECTS

Amazon Clone | *React.js, Node.js, Express.js, PostgreSQL, JavaScript*

March 2025 – May 2025

- Developed **JWT-authenticated REST APIs** for user management, product listing, and cart operations using **Node.js** and **Express.js**.
- Designed a **normalized PostgreSQL schema** with **indexing** across users, products, cart, and orders for efficient retrieval.

GestoSense | *Python, PyTorch, OpenCV, MediaPipe, ST-GCN*

Jan. 2025 – April 2025

- Built a **gesture recognition pipeline** converting **MediaPipe landmarks** into **spatial-temporal graphs** classified via **ST-GCN**.
- Trained and fine-tuned **ST-GCN** to learn **spatial dependencies** and **motion dynamics** for gesture classification.
- Implemented **real-time inference** using **OpenCV**, evaluating model performance via **confusion matrices**.
- Improved **model robustness** by applying **data augmentation** and **hyperparameter tuning**.

URL Shortener | *Node.js, Express.js, MongoDB, JavaScript*

Oct. 2024 – Dec. 2024

- Designed **RESTful APIs** for URL creation, resolution, and **analytics logging** with **collision-free short-code generation**.
- Built **MongoDB schemas** with **Mongoose indexing** to optimize **lookup performance** across redirection and analytics queries.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C++

Web Technologies: Node.js, Express.js, REST APIs, React.js, HTML, CSS

Databases: PostgreSQL, MongoDB

AI/ML Frameworks: PyTorch, TensorFlow, scikit-learn, OpenCV, MediaPipe, Pandas, NumPy

Developer Tools: Git, GitHub, Docker, Postman

Core Fundamentals: Data Structures and Algorithms, Object-Oriented Design, Operating Systems, Computer Networks

CERTIFICATIONS & ACHIEVEMENTS

- Outstanding Performance & Service Award** | BCA Association, Bishop Heber College | 2022
- Solved 300+ DS&A Problems** on LeetCode & GeeksforGeeks; completed **160 Days of Problem Solving** on GeeksforGeeks | 2025
- Machine Learning A-Z: AI, Python & R + ChatGPT Prize** | Udemy | 2025
- The Complete Full-Stack Web Development Bootcamp** | Udemy | 2025
